

User Acceptance Testing (UAT)

Date	19 July 2026
Team ID	
Project Name	Visualization Tool for Electric Vehicle Charge and Range Analysis
Maximum Marks	

Project Overview:

Project Name: Visualization Tool for Electric Vehicle Charge and Range Analysis

Project Description: A Tableau-based dashboard that analyzes electric vehicle data, including charging stations, vehicle range, efficiency, pricing, top speed, and EV trends using data stored in MySQL.

Project Version: 1.0

Testing Period: [18 July 2026] to [19 July 2026]

Testing Scope:

MySQL database connectivity

Tableau data connection

Dashboard functionality

Story navigation

Interactive filters

EV data visualizations

Calculated fields

Map visualization

Testing Environment:

URL/Location: Local System (Tableau Desktop)

Credentials : Not Required

Test Cases:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	Connect MySQL to Tableau	Connect database and load tables	Database connects successfully	Connected successfully	Pass

TC-002	Load EV dataset	Import dataset into Tableau	Data loads correctly	Loaded successfully	Pass
TC-003	Apply Filters	Select Brand/Car/Charging Type	Dashboard updates correctly	Working correctly	Pass
TC-004	View Dashboard	Open dashboard	All visualizations	Displayed correctly	Pass
TC-005	View Story	Open Story	Story points displayed	Displayed correctly	Pass
TC-006	Verify Map	Open charging station map	Locations displayed correctly	Displayed correctly	Pass

Bug Tracking:

Bug ID	Bug Description	Steps to reproduce	Severity	Status	Additional feedback
BG-001	No critical issues identified during testing	N/A	Low	Closed	Application function as expected

Sign-off:

Tester Name: Poojitha

Date: 19 July 2026

Signature: Poojitha

Notes:

- Ensure that all test cases cover both positive and negative scenarios.
- Encourage testers to provide detailed feedback, including any suggestions for improvement.
- Bug tracking should include details such as severity, status, and steps to reproduce.
- Obtain sign-off from both the project manager and product owner before proceeding with deployment.
