

Ideation Phase

Define the Problem Statements

Date	18 July 2026
Team ID	
Project Name	Visualization Tool for Electric Vehicle Charge and Range Analysis
Maximum Marks	2 Marks

Customer Problem Statement Template:

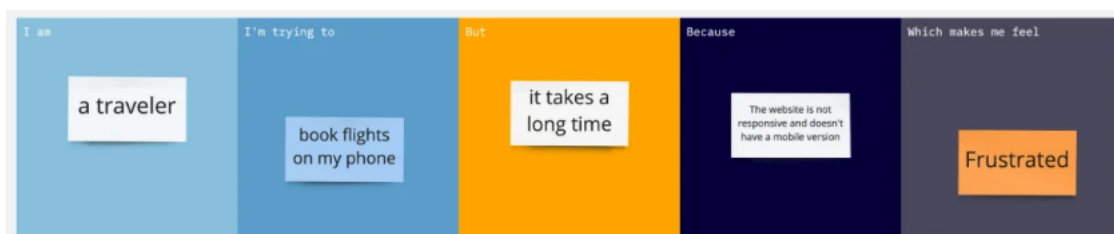

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - <i>who are they?</i>	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" the care about - <i>what are they trying to achieve?</i>	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way - <i>what bothers them most?</i>	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists - <i>what needs to be solved?</i>	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view - <i>how does it impact them emotionally?</i>	Describe the emotions the result from experiencing the problems or barriers

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
------------------------	-----------------	---------------	-----	---------	---------------------

PS-1	An electric vehicle buyer or user.	Compare different electric vehicles based on range, price, battery efficiency, and specifications .	It is difficult to find all relevant EV information in one place and compare multiple vehicles easily.	Available EV data is scattered across different sources and lacks simple visual analysis.	Confused and uncertain while making decisions about selecting a suitable electric vehicle.
PS-2	An EV industry analyst or stakeholder.	Understand EV market trends, charging infrastructure availability, and vehicle performance.	Analyzing large amounts of EV data manually is time-consuming and complex.	There is a need for an interactive tool that converts raw EV data into meaningful insights.	It is challenging to make quick data-driven decisions.
