

Project Design Phase-II
Data Flow Diagram & User Stories

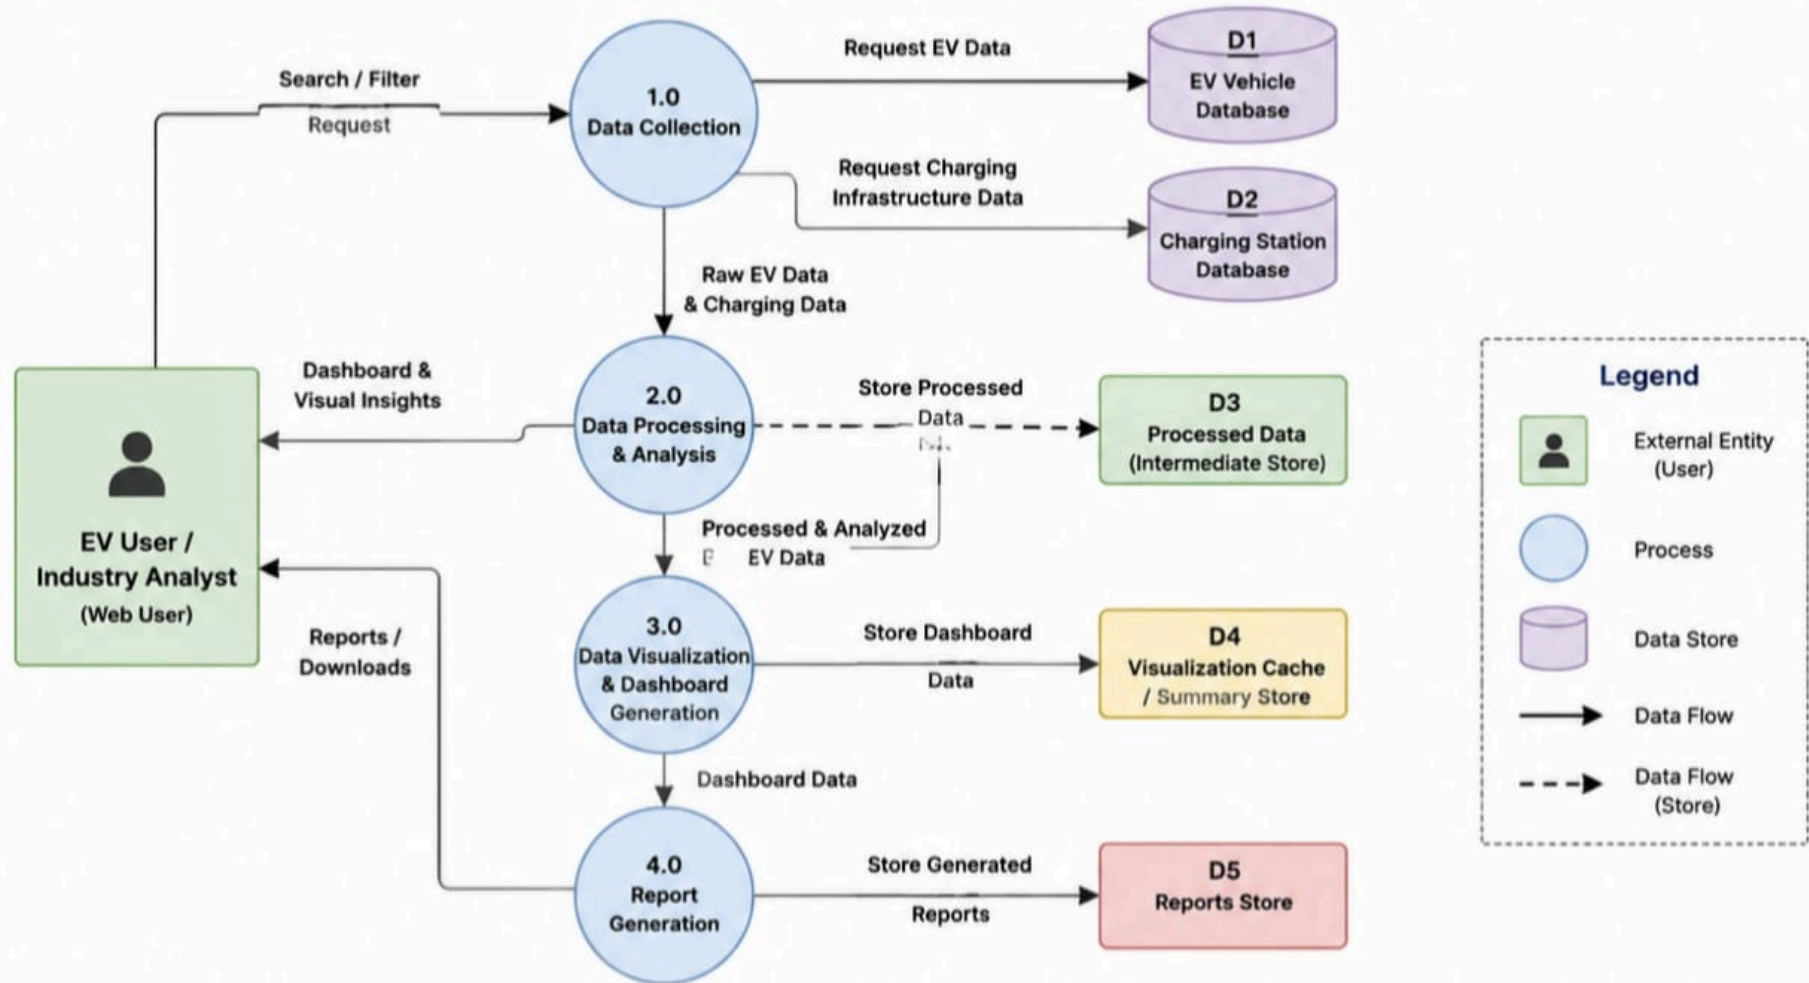

Date	18 July 2026
Team ID	
Project Name	Visualization Tool for Electric Vehicle Charge and Range analysis
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Data Flow Diagram(DFD)

Data Flow Diagrams (Level 1) – Visualization Tool for EV Charge and Range Analysis

Description:

The user searches or applies filters to view EV data. The system collects raw data from EV Vehicle Database and Charging Station Database, processes and analyzes it, and generates interactive dashboards and reports. The user can view insights or download reports for decision making.

User Stories

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Web User)	Access Dashboard	USN-1	As a user, I can access the EV visualization dashboard to view insights.	Dashboard loads successfully with EV data.	High	Sprint-1
Customer (Web User)	View EV Details	USN-2	As a user, I can view EV specifications such as range, price, efficiency, and features.	EV details are displayed correctly.	High	Sprint-1
Customer (Web User)	EV Comparison	USN-3	As a user, I can compare different EV models based on specifications.	User can compare selected EV models.	High	Sprint-1
Customer (Web User)	Range Analysis	USN-4	As a user, I can analyze EV range information using charts and graphs.	Range visualization is displayed.	High	Sprint-1
Customer (Web User)	Charging Station Analysis	USN-5	As a user, I can view EV charging station information.	Charging station details are available.	Medium	Sprint-2
Customer (Web User)	Filter Data	USN-6	As a user, I can filter EV data based on brand, price, range, and features.	Filters provide relevant results.	Medium	Sprint-2
Customer (Web user)	View Visualizations	USN-7	As a user, I can view interactive charts and dashboards.	Charts and dashboards display correct insights.	High	Sprint-1
Customer Care Executive	Provide Support	USN-8	As a customer care executive, I can help users with dashboard-related queries.	User queries are resolved.	Medium	Sprint-2
Administrator	Manage EV Dataset	USN-9	As an administrator, I can add, update, and manage EV datasets.	Dataset updates are reflected in the system.	Low	Sprint-3
Customer Care Executive	Monitor Feedback	USN-10	As a customer care executive, I can collect user feedback for improvements.	Feedback is recorded successfully.	High	Sprint-2
Administrator	Manage Dashboard	USN-11	As an administrator, I can maintain dashboard visualizations.	Dashboard functions correctly after updates.	Medium	Sprint-3
Administrator	Generate Reports	USN-12	As an administrator, I can generate EV analysis reports.	Reports are generated successfully.	Low	Sprint-3
